**DETAILED ACTION**

1. This action is responsive to amendment received on April 13, 2005.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 3, 5-19-29, 32 and 34-59, drawn to computer to computer data routing, classified in class 709, subclass 238.
- II. Claims 61 and 62, drawn to computer to computer data compressing/decompressing, classified in class 709, subclass 247

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as compressing data stream over the connection. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).
